

D) Contents for “Grants” under: WHAT WE DO?

[The tree structure remains the same on the [website](#), but some contents must evolve in echo to FRAME Programs resulting from the Strategic Plan.]

1. Overview and Guidelines

FRAME supports activities at member museums in North America and France with the goal of serving FRAME’s mission to promote cultural exchange in the context of museum collaborations. FRAME’s grants promote the **incubation of cooperative initiatives between members** that are the **result of joint interests, research, planning**, or the **sharing models of best practice** among FRAME colleagues.

In compliance with its strategic plan (2024-2028), FRAME Grants align with initiatives resulting from the FRAME Research Program, the FRAME Long-Term Loans Program and the FRAME Travel Programs.

> **Diversity, Equity, Accessibility, and Inclusion (DEAI) shall be integrated across all functions**, or FRAME programs effectively or implicitly, including social responsibility and possibly environmental liability. To achieve this ambition FRAME also encourage **transdisciplinary actions crossing curatorial and educational expertise among members**.

> **Each programmatic action shall participate in a long-term action plan** which includes an evaluation and a collective presentation of results to the FRAME network and beyond.

FRAME Grants are available for the following cooperative activities:

FRAME Research Program

Shared initiatives

- > *Educational and Public Engagement*
- > *Exhibition catalogues*
- > *FRAMEworks*
- > *Online Activities*
